

ABSTRACT OF THE DISCLOSURE

The present invention relates to image input/output apparatuses for outputting inputted image data, a control method of the image input/output apparatuses, an image input/output system and a storage medium thereof. According to the present invention, in case of receiving an image output request of outputting image data inputted by another image input/output apparatus using the another image input/output apparatus and an own image input/output apparatus, setting related to sheet size selection of the own image input/output apparatus is disabled, and data size of the image data transferred from the another image input/output apparatus is calculated. Then, output sheet size is selected on the basis of the calculated result.
